

The crystal clear solution for your water problems is now going Green

Once again, Puronics® has advanced the technology of water treatment with the development of the new Clarius™ whole-house system. Through the implementation of Green technology, Clarius™ provides high-quality water in a cost-effective manner - without the use of salt, potassium or chemicals. You will enjoy the benefits, save money and know you are doing your part to protect the environment.

Puronics® combines the advanced technology of its HYgene Bacteriostat (incorporating NASA Technology) with their new Green technology to lead the industry in improving the health of your family and the Earth.

Contaminants or other substances which can be removed by the Puronics® Clarius™ system are not necessarily in your water. Operational maintenance and replacement requirements are essential for the product to perform as advertised. Actual savings achieved are dependent on your particular spending habits and usage levels.
